

# THE GOLDEN LAND (MYANMAR)

2020

## WHY DID I GET THE IDEA TO DEVELOP THIS PROJECT?

### 1. Problem Statement

**i** Although there are many websites about Myanmar, they are mostly travel agencies. They emphasize about places in Myanmar and only few websites show Myanmar's culture, ethnic groups in Myanmar and Myanmar's traditional cuisine. It is difficult for people who want to know about all of these things such as those who are enthusiastic about Myanmar, who want to try traditional cuisine.

### 2. Solution

**i** I got this idea because even though I am a Myanmar citizen, I really don't know about festivals, places and ethnic groups in Myanmar. I think it is even more difficult to know these things for foreigners. So, I decided to implement this project in order to aid those who want to know all these things.

### 3. Languages

**i** HTML,CSS,SCSS,BOOTSTRAP,JAVASCRIPT

### 4. Project Overview

**i** It is comprised of four sections in my project.

- Overview
- Places
- Race
- Culture

## FOUR SECTIONS

### 1. Overview

- i** It display an overview about Myanmar such as area, states, regions and four major rivers in Myanmar.

### 2. Places

- i** It shows 30 of the famous places in Myanmar. These places are most tourist-attractions of Myanmar.

### 3. Race

- i** It has the details about 8 major ethnic groups in Myanmar. It also has a list of total 135 ethnic groups in Myanmar.

### 4. Culture

- i** This section has three sub-sections – Festivals, Cuisine and Handicrafts of Myanmar. Festivals part shows various festivals of 12 months. Cuisine section has 15 Myanmar traditional cuisines. Handicrafts has 5 of Myanmar's most popular products and handicrafts, some of them are exported to other countries.

**This project is developed by Ye Lwin Oo.**
